STIGA

“

STIGA machines are engineered, designed and manufactured to the highest standards. They are built to last and high performing.

Complex engineering that is intelligently made, simple to use and maintain.

What makes STIGA stand apart, is our passion to help every gardener enjoy their passion; to love tending their gardens, be they great or small and to get perfect results.

We at STIGA are green fingered engineers, with the hearts of gardeners.

STIGA RANGE

Our main goal is to make gardening a pleasure, and make each garden a STIGA garden, a healthy and happy place.

We know that each season has its own tasks to solve - and each gardener wants to choose the tools to work with in the garden. At STIGA we ensure the choice of what they do and when they do it is theirs - we just make the "how you do it" better.

So there's a STIGA tool designed according to how consumers would like to take care of the garden in each season: the **STIGA Essential range**, developed for gardening newbies and those who want to act quick and achieve a certain garden quality. The **STIGA Experience range**, the perfect way to experience something new and grow the activities one can do in their garden. The **STIGA Expert range** - including the most powerful and featured products.

ESSENTIAL

FOR NEW AND QUICK GARDENERS

- Lightweight tools
- Easy to adjust, start, control and use, finally easy to clean and store
- Simple and intuitive functions
- Precise results

EXPERIENCE

A STEP-UP WITH STIGA

- Robust tools
- Tougher jobs
- Prolonged session
- Diversified work

EXPERT

THESE PRODUCTS MAKE YOU AN "EXPERT"

- Durable
- Superior power output
- For intense working environment
- Customisable performance
- Most robust and responsive control

EP^{OWER}
DRIVEN BY STIGA

The first battery generation that has been developed, tested and produced by STIGA.

Switching to battery is a garden lifestyle trend, that's here to stay and will continue to accelerate. At STIGA, we engineer our battery power for our consumers to be at the cutting edge. STIGA E-Power is the flexible energy that can be used with any tool. This battery has been developed and tested in all configurations for the ultimate in flexibility, safety and efficiency.

POWERED BY
STIGA

Designed by STIGA,
for STIGA machines

STIGA engines are not only designed to fit STIGA machines in terms of style and dimensions: the performance of the engine and the torque curve are specifically developed to match the machine they equip and the kind of work it needs to manage. STIGA engines enhance the performance of the machine, because they are studied to make the machine give its best in any working condition.

20V BATTERY SYSTEM

- The battery is perfectly integrated in the machines and tools and it disappears when plugged in
- State of charge always visible, thanks to the 4 LED
- Venting holes prevent overheating and extend battery life
- Smart features include tool recognition to always give the most suitable performance

ESSENTIAL
SERIES 100

48V BATTERY SYSTEM

- Shares the same DNA with the 500 and 700 Series, as well as with the 900 Series
- The battery communicates with the tool and viceversa
- Integrated black box stores information of the entire battery life-cycle

EXPERIENCE
SERIES 500
SERIES 700

EXPERT
SERIES 900

BATTERY HARNESS

- The hero of the 900 Series hand held system is the Battery harness (SBH 900)
- It is the power carrier, clearing the tool of the battery weight and doubling the power at your disposal.
- It is flexible - can host 2 E-Power batteries with 48V.
- You plug the batteries in and they work one at a time. Once one battery is at the end of its charge, you simply select the second and continue to work.

EXPERT
SERIES 900

LAWN MOWER BATTERY

500 SERIES (PUSH)

Whether you fit 2 batteries on a 500 Series push version powerhead: only one battery works, the other is ready for manual swap.

700 SERIES (SELF-PROPELLED)

Whether you fit 2 batteries on a 700 Series lawn mower, they work as a synchro pair: the power head balances the load on both batteries and synchronizes the discharge.

900 SERIES

2 x 7,5 Ah batteries at full charge are suggested on all 900 Series lawn mowers for the utmost power output. Batteries will create a boosting pair as they work in series giving you more power.

ESSENTIAL 20V BATTERY SERIES 100

The STIGA 20V battery range, or 100 Series, includes lightweight, easy to use and intuitive tools, giving precise results with minimum effort.

Everything with all the benefits of being battery-powered, which means, you are not tied down and aren't bothered by cables.

All you need to do is to take the tool in your hands, plug in the battery, push START... and off you go!

**LAWN MOWER
COLLECTOR**

- Compact dimensions, easy to use and store, specific for collecting grass
- 30, 34 and 38 cm blade dimension
- Supplied with 2Ah or 4Ah batteries, depending on the model

**HEDGE TRIMMER
SHT 100 AE KIT**

- Soft-grip handle with ergonomic shape and 180° rotation
- Easy to reach triggers, double-switch for maximum safety
- Steel laser cut blade with 25 mm tooth opening

**BLOWER
SAB 100 AE KIT**

- Perfectly balanced, easy to handle
- Powerful air flow of up to 32 m/s (115 km/h). Speed can be easily regulated
- Only 2.14 kg weight, for effortless operations

**LAWN TRIMMER
SGT 100 AE KIT**

- Auto-feeding nylon head
- Cutting head rotation up to 45° and 5 different settings
- Adjustable telescopic shaft, and adjustable loop handle

**MULTI-TOOL
SMT 100 AE KIT**

- Extendable telescopic shaft, up to 65 cm length
- Choose if to plug in the pole saw or hedger
- Harness hook for maximum safety

EXPERIENCE 48V BATTERY SERIES 700

Experience a step-up in your garden, thanks to STIGA 700 Series Battery range!

Designed and developed for the passionate and demanding garden's owner who is already working with a battery tool, but might be looking for a step-up in the experience of taking care of his garden. Main features of the 700 Series Battery range are an increase in motor power, precise & performing cutting devices and enhanced comfort.

**LAWN MOWER
MULTICLIP**

- Equipped with Multiclip mulching technology
- Newly engineered handle with keypad
- Eco-mode function

**LAWN MOWER
COMBI**

- 4-in-1 cutting system for a 4-Season usage
- Cutting deck up to 53cm
- New handle totally redesigned and equipped with keypad

**HEDGE TRIMMER
SHT 700 AE**

- Rear handle can be adjusted in 5 positions (up to 180° rotation), for any working angle
- The speed can be adjusted into 3 different working levels
- The 63 cm dual action laser cut blade efficiently trims hedges with a branch diameter up to 26 mm

**BLOWER
SAB 700 AE**

- Soft touch on the handle grants a perfect grip and less fatigue
- Trigger for easy speed setting and management (air flow up to 198 km/h)
- Hook on the bottom of the handle to attach the harness on both sides

**POLE HEDGER
SPH 700 AE**

- Can be adjusted into 6 different cutting positions by a button
- Blades are 48 cm dual cut laser, with a cutting width of 26 mm
- The 65 cm telescopic shaft allows to reach a cutting height of 3 m

**POLE SAW
SPS 700 AE**

- 10" bar with high performance chain
- Automatic lubrication of the chain
- Cutting bumper for a precise and safe cut

**BRUSHCUTTER
SBC 700 AE**

- Cutting width 38 cm
- Adjustable loop handle to customize working position
- Harness hook to ensure comfortable and safe working sessions

**BRUSHCUTTER
SBC 700 D AE**

- 5 customizable working positions for perfect balance
- Keypad and speed trigger positioned on the right handle
- 5 different harness hook options for maximum comfort

EXPERT 48V BATTERY SERIES 900

A product line that meets the highest expectations of gardeners and farmers, who are used to petrol and now desiring to convert into battery - the new STIGA Expert Battery Range.

The 900 Series gives a performance equal to the most powerful petrol machines, but it adds to the highest performance standard the many advantages of working with battery tools: the work is doubly enhanced. It works with a 48V battery, shareable also with the 500 and 700 Series.

**LAWN MOWER
COMBI**

- For gardens up to 1.000 sqm
- 2,2 kW motor
- Galvanized steel deck
- 70 L grass catcher
- 4-in-1 cutting system

**LAWN MOWER
MULTICLIP**

- For gardens up to 1.300 sqm
- 2,2 kW motor
- Galvanized steel deck
- Top mulching technology

**LAWN MOWER
TWINCLIP**

- For gardens up to 1.100 sqm
- 2,2 kW motor
- Galvanized steel deck
- 70 L grass (catcher with One Motion System)
- 4-in-1 cutting system
- Vertical storage

**HEDGE TRIMMER
SHT 900 AE**

- Works non-stop for 200 minutes by plugging 2 x 7,5 Ah batteries in the battery harness
- The tool only weighs 5 kg
- Rear handle can be turned 90° left or 90° right into 5 different positions to adapt the tool handling
- Handles are soft to grip and they absorb vibrations

**BLOWER
SAB 900 AE**

- Works non-stop for 130 minutes
- The tool only weighs 3,76 kg
- Rear air intake grid contributes in reducing the noise and increases performance
- Air flow speed up to 198 km/h and the air volume up to 946 m³/h

**BRUSHCUTTER
SBC 900 D AE**

- Works non-stop for 150 minutes, by plugging 2 x 7,5 Ah batteries in the battery harness
- The tool only weighs 7 kg
- Can be adjusted to suit the operator's height
- The heavy duty twin line cutting device is provided with Bump & Work system for quick feeding of the cutting head with the nylon line

**POLE HEDGER
SPH 900 AE**

- Works non-stop for 240 min
- The tool only weighs 7,1 kg
- Electronic control panel. You can adjust the blade working into 3 different speeds

E-RIDE

STIGA e-Ride is the very first generation battery-powered tractors, completely designed, developed and produced by STIGA.

An electric tractor offers the same performance as a petrol-powered one, but without all the maintenance connected to being petrol-powered: no refueling, no oil to drain, no spark plugs to replace.

You just need to recharge the battery and off you go!

The powertrain is completely designed and developed by STIGA.

BATTERY

- Premium battery cells with STIGA layout
- High durability, no memory effect
- Good air circulation between cells and low stress for the cells' life
- No stressed cells means longer service life

ELECTRIC BLADE MOTORS

- Reduced maintenance, thanks to brushless DC motors mounted directly on the cutting deck, with no need of pulley or belt
- Efficiency up to 85% - no loss of power means higher runtime
- Maximum power & cutting performance in heavy load conditions
- 100% electric means noise reduction and better sound quality

STIGA ELECTRIC TRANSMISSION

- Top-level usability is given by digitally controlled electric motor transmission
- Maneuvering precision
- Possibility to climb up to 10° slope

STIGA.GO APP

STIGA connectivity on the e-Ride offers advanced features for an enhanced mowing and an easier life. The machine connects to a smartphone thanks to Bluetooth communication. The STIGA.GO mobile app allows you to:

- The STIGA.GO mobile APP allows you to:
- See all information about your e-Ride, including the amount of CO2 saved from the beginning
 - Schedule charging day and time with 2 possible sessions, in order to save costs
 - Use the virtual dashboard while cutting (on e-Ride C500 and S500)
 - See scheduled maintenance activities and add extra-activities if needed
 - Contact your selected dealer and share the status of the machine with him with just one tap

e-Ride

Battery powered performance

STIGA

E-RIDE C500

EPower
DRIVEN BY STIGA

- Battery powered petrol-free and stress-free riding mower
- Cutting-edge and feature-packed – quick start, eco mode, cruise control, LED headlights and more
- 240l grass collector and mulching plug
- Powerful 1.2kW transaxle motor, and two cutting blade motors totalling 3kW
- 84cm cutting width, adjustable to 7 different heights
- 48V 40Ah battery included – standard charger included, fast charger available as optional accessory

stig

Stig is not just a mower, Stig is the one who will take care of your garden, the way you would... or maybe even better.

Stig is a combination of fresh engineering and lawn cutting expertise collected by STIGA over years spent in your gardens. Engineered from the inside-out to perfectly maintain your lawn. Automatically.

Lightweight & compact: perfectly balanced for all terrain - slopes up to 45% (24°)

Simple, intuitive on-board control panel + App connectivity and control

The highest safety levels - from front to back

Noise reduction built-in-robust shell constructed from a plastic consisting of polypropylene and 30% talc

High performance cutting by 4 pivoting blades

THE BODY

- Multiple garden types, up to 1200 sqm
- Compact: it will easily tackle narrow spaces or bypass trees and bushes
- Lightweight less than 8 kg
- The material mix that builds the bottom cover ensures noise is absorbed for silent cutting
- Perfect balance delivered by the chassis design and by its center of gravity allows it to climb slopes up to 45% (24°)

THE HEART

- High-quality battery, ensuring stunning performance and a long life
- 3 years unvaried performance (1500 charging and discharging cycles)
- Provides energy to brushless wheels & blade motors

THE BRAIN

- Stig's brain has two hemispheres: one for power and the one for logic
- By setting up to 5 "Go-to-Cut" points, Stig will learn where to start the cutting sessions along the wire
- The rain sensor will ensure a correct recognition of rain and false humidity cases
- Soft obstacle detection sensors to recognize obstacles

RELATIONSHIP WITH THE USER

The user interface is made of simple and intuitive functions:

- On/Off switch
- Start
- Go home
- Bluetooth activation/pairing
- Spot cut /scheduled cutting mode

STIG APP

The Stig App is new, fresh, intuitive and entirely designed and developed with our specification. It is available for IOS and Android. Communicate with Stig anytime you want and set it or adjustments are simply in your preferences

Through the app, you can among others:

- schedule a cutting program
- scheduled and spot cut
- border cut
- Go-To-Cut points
- Eco-mode
- set rain sensors

STIG

- Mows up to 1200sqm (5Ah battery) or 600sqm (2.5Ah battery)
- Choose between scheduled cutting session or spot cut, if you need Stig to immediately start cutting
- Intuitive keypad and controls
- Obstacle sensors protect the whole family
- Bluetooth-enabled for smartphone control through the STIG app
- Powered by 5Ah or 2.5Ah battery – sold separately

Lawn Tractors

Estate, Tornado & Combi

Born to ride everywhere

Driving through large and complex lawns in total comfort means riding a STIGA lawn tractor. Robust and well-equipped machines, that allow to efficiently cut the grass and not worry about small stones, obstacles or slopes.

Being a STIGA lawn tractor

EXCELLENT CUTTING

All tractors offer excellent cutting-performance, whatever the grass conditions. Thick, overgrown and damp grass can be quickly and efficiently cut and collected or rear-discharged. A mulch-kit comes as standard with every model.

POWER AND CONTROL

All tractors are powered by high-performance twin- and single-cylinder engines. Efficiency, component-quality and reliability are the main attributes of all the engines chosen to power STIGA machines.

ROBUST AND STURDY

All tractors are constructed around a highly robust chassis. Some models feature a reinforced heavy-duty deck; while others benefit from a cast-iron front axle that contributes further to overall strength and durability.

ADDITIONAL FEATURES

MAXIMUM CONTROL

Four-wheel drive traction allows to have improved grip on sloping and uneven terrains, while cruise control makes speed management easier.

PEDAL OPERATED HYDROSTATIC TRANSMISSION

With no gears to operate, hands remain comfortably on the steering wheel for less tiring and safer cutting sessions.

CUTTING WIDTH UP TO 122 CM

Wide and reinforced cutting decks prevent blockages, even with wet and tall grass. Featuring timed blades and anti-scalp wheels, they can be set up to 9 different cutting positions.

INTUITIVE DASHBOARD

All operating information can be checked from the 6-LED or smart 5.5" widescreen display, also featuring Best Cutting Zone function. Blade engagement is button-operated and easy.

WORK IN COMFORT

STIGA Comfort Plus Seat is fully adjustable and equipped with high back support and armrests.

The soft and ergonomic steering wheel offers optimal grip while the ABS panel absorbs vibrations at foot level.

Estate

The collecting hero

Ideal for expansive green areas. Spacious, easy-to-manage collectors enable large-scale jobs to be completed faster, by reducing the frequency of emptying stops.

- **Extreme cutting precision**
- **Powerful engines**
- **Robust structure**
- **Mulching function available as standard**
- **Timed blades for excellent cutting and collecting**
- **Smart widescreen 5.5" display**
- **LED lights**
- **A wide range of accessories and attachments ensures great versatility, making Estate an all-season-machine**

PRODUCT HERO

ESTATE PRO 9102 XWSY

ESTATE PRO 9122 XWSY

- High-performance Honda twin-cylinder engine
- 122 cm reinforced cutting deck with 4 anti-scalp wheels
- 4WD ensures the greatest grip on any terrain
- Smart 5.5" widescreen display with all operating information and Best Cutting Zone
- Powerful LED headlights and robust front bumper
- Comfort is improved by Seat with armrests and soft-grip steering wheel

Tornado

No lawn is impossible

The side-discharge tractor is recommended for cutting rough, overgrown grass over large areas where collection is not required – clippings are instead laid out in tidy rows.

- **Powerful engines**
- **Highest cutting performances**
- **Solid framework**
- **Comfortable seat and soft-grip steering wheel**
- **Mulching function available as standard**
- **Smart widescreen 5.5" display**
- **LED lights**
- **No box to empty**
- **A wide range of accessories and attachments ensures great versatility, making Tornado an all-season-machine**

Combi

The small garden conqueror

Thanks to its compact dimensions and excellent maneuverability, a Combi ride-on is the perfect choice for taking care of smaller lawns where there are obstacles and complex borders to negotiate.

- Full, unrestricted view of the working area
- Three cutting-methods available: collection, side discharge, mulching
- The ideal upgrade from a larger walk-behind mower
- Ease of use

Multi-Connect System

The Multi-connect system enables to switch between a wide choice of implements for spring, fall, and winter use. Granting maximum versatility, it is also very intuitive and easy: switching Accessories and attachments is quick and requires no tools. Proper kit and attachments can be chosen according to the model (2WD or Four-wheel drive traction), to enjoy taking care of the garden all year round.

+

PTO KIT
Attached to the tractor it can be left in position even without using the implements itself.

Front Mowers

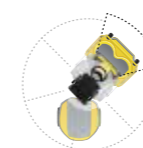

Park Pro, Park & Villa

Meet the challenges of mowing head on

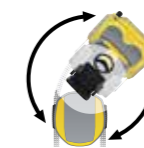

No matter what the garden looks like and how complex it might be: any situation can be managed with a STIGA front mower!
These machines offer great cutting and mulching performance thanks to the high-quality blades, and the unique STIGA articulated steering allows them to easily maneuver around obstacles such as trees, stones and flowerbeds.

Being a STIGA front mower

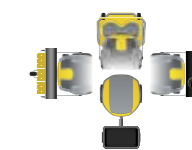

EASE OF USE

The front-mounted cutter-deck, means you'll have full control of the machine and cutting-path as you mow.
Thanks to STIGA Quick Flip technology, the deck will prove easy to clean. Through RAC quick connection, it can be replaced with an attachment in less than 30 seconds.

DRIVING COMFORT

All STIGA Park front-mowers are articulated machines that can be maneuvered easily in the most space-restricted areas: the machine bends in the middle and the rear wheels follow the front exactly – drive without worrying about accidental impact.

PERFORMANCE

STIGA front mowers are powered by high-quality twin- and single-cylinder engines. Efficiency, quality of components and reliability characterize all the power-plants employed by STIGA.

ADDITIONAL FEATURES

QUICK FLIP TECHNOLOGY AND RAC SYSTEM

Raising the deck for cleaning will take less than 30 seconds. Switching front Accessories and attachments can be done without any additional tools.

TOP QUALITY MANEUVERABILITY

With STIGA articulated steering, mowing around obstacles is easy and prevents arm fatigue. Top-of-the-range models feature Four-wheel drive traction.

COMBI DECKS UP TO 125 CM

A wide range of decks from 85 to 125 cm with 2 or 3 mulching cutting blades. Mulching can be done for fine cutting, while rear discharge suits longer grass.

PEDAL OPERATED HYDROSTATIC TRANSMISSION

With no gears to operate, hands remain comfortably on the steering wheel for less tiring and safer cutting sessions.

LED HEADLIGHTS

They grant greater visibility during low-light sessions, that is particularly useful in winter when clearing snow.

Park Pro

Get the job done, eight hours a day

The STIGA Park Pro front-mowers offer the ultimate combination of raw power, flexibility of use and precision cutting.

- Top mulching performance
- Exclusive 50:50 articulated steering with hydro piston
- Four-wheel drive traction
- Heavy duty structure
- Great stability
- Hydraulic tool lift
- Quick Flip technology
- All-seasons machine

PARK 2021

The new Park 2021 is redesigned in the body, delivering superior performances, adding reliability but also pleasing in the interaction you may have with it. STIGA is introducing a comprehensive line-up of 9 machines, from PARK 320 P to 740 PWX fitting any customer's needs.

STEEL REAR BUMPER
Increasing the robustness in case of accidental impacts

EXTERNAL FUEL CAP
To easy refill, without lifting the bonnet

ERGONOMIC SIDE PANEL, from series 300 to series 700 models, with all commands at hand

REAR REFLECTORS
Enhanced visibility when working on public areas

QUICK FLIP TECHNOLOGY
for the easiest way to access the lower part of the deck for maintenance and cleaning

QUICK FLIP

PERFECT VISIBILITY

A cutting deck positioned in front of the machines for a better mulching experience and for you to always know and see where your doing your job.

NEW LED HEADLIGHTS

- 5 different front LED headlights from 6W to 15W
- Keep everything under control – even at night. Or early in the morning
- Intensively tested to offer the most comfortable experience ever

IMPROVING THE INVISIBLE

- New improved hydraulic traction system
- Oil flow has been completely reversed
- Efficiency of the 4WD improved by 34%

With stiga 50:50 articulated steering, you can handle any complexity

PARK 640 PWX

- Ultra-powerful 586cc twin-cylinder STIGA ST 600 Twin engine
- All-wheel-drive Tuff Torq transaxle transmission for better climbing
- Front-mounted deck with cutting widths from 95cm to 125cm
- High-back-support seat and ergonomic dashboard with big compartment
- Bluetooth module and app notifies of tasks, such as maintenance
- Bluetooth module and app notifies of tasks, such as maintenance
- High-beam LED headlights

Accessories and attachments

Combi decks

STIGA Combi decks combine two mowing techniques, so to be able to choose the best cutting method, depending on the lawn's conditions. Mulching is perfect for fine cutting and naturally fertilizing the lawn. If grass has grown tall, rear discharge may be preferable.

Featuring a working width from 85 cm to 125 cm, they are suitable for Park models according to STIGA suggestion. The decks are equipped with 2 or 3 blades. Their aerodynamic shape offers excellent mulching performance.

QUICK FLIP TECHNOLOGY

Raising the deck for cleaning or maintenance will take less than 30 seconds and it won't require any additional tool.

Release And Connect (RAC) system

The RAC Quick connection allows to quickly switch accessories and attachments on a front mower. The operation takes less than one minute and needs no additional tools. RAC is available as standard on the STIGA Park models and as an option on the STIGA Villa models.

Secure the accessory hook

Move the lever arm up using your foot

Lock the arm in the correct position

Secure the lock using a split pin

Villa

Great versatility, easy management

Stiga Villa front-mowers offer great ease-of-use, performance and build quality. The Villa is compatible with a wide range of attachments, making it an all-year machine.

- **Light and precise front-wheel drive**
- **Maneuverability**
- **Compatible with a wide range of attachments**

Zero Turn Mowers

Enjoy efficiency and agility

Designed for mowing large areas in less time by turning 180 degrees and cutting at a high speed, STIGA Zero Turn mowers are unique machines with easy-to-use levers for steering.

- Robust steel deck with three blades
- High speed performance
- Comfortable seat absorbs vibrations
- Foot operated deck lift: for raising and lowering the deck without having to stop
- Adjustable control levers: for a customized driving position

ZT 7132 T

- Twin-cylinder Kawasaki engine
- 132 cm welded cutting deck with 3 blades
- Two-lever steering system
- Designed for side discharge

Lawn Mowers

Twinclip, Multiclip, Combi & Collector

A wide choice, for every type of garden

STIGA lawn mowers are easy to use, reliable and robust machines for mowing in the more traditional way. Depending on the size of the garden, there is a variety of models to choose from, with different power sources and cutting systems: collecting, mulching and side discharge models, to suit all needs.

Being a STIGA lawn mower

TOP CUT PERFORMANCE

STIGA walk-behind lawn mowers offer an excellent mowing-experience and superior cutting-performance, through STIGA's patented dual-level Twinclip blade and STIGA's Multiclip technology. Four cutting-methods are available on these machines: collecting, mulching, side- and rear-discharge.

A WIDE CHOICE

STIGA offers a wide selection of cutting-decks that vary in design and width. There's a deck-type to meet any lawn and any need!

EQUIPPED FOR COMFORT

Available features - such as a Blade-Brake Clutch, an Anti-Vibration System and a grass-guard - make mowing easier and more enjoyable.

ADDITIONAL FEATURES

DIFFERENT POWER SOURCES

STIGA offers a wide choice of power sources, to suit all needs. Lawn mowers can be battery-, petrol- or electrically-powered.

CAPACIOUS GRASSBAGS

STIGA collector bags are available up to 70 L capacity, for long cutting sessions and no need to stop to empty them.

WIDE RANGE OF CUTTING HEIGHTS

STIGA lawn mowers suit many needs in terms of cutting height, offering a wide choice.

ERGONOMIC AND SMART HANDLES

All STIGA handlebars are designed to enhance ergonomics and comfort. STIGA battery-powered lawn mowers feature a new intuitive keypad.

DRIVING

Lawn mowers can be self-propelled, for long and demanding sessions on big terrains, or push-propelled, for small and domestic gardens.

ADDITIONAL COMFORT FEATURES

Electric start: start the engine with the push of a button. No cord to pull.

Speed variator: adjusts the drive speed to a comfortable pace.

Vibration Control System: reduces vibration with shock absorbing materials.

Blade Brake Clutch: disengages the blade while keeping the engine on.

Washing link: to easily clean the deck after use.

Vertical storage: to store it vertically with oil and fuel on board and occupies less space.

Roller versions: replace the back wheels with a rear steel roller for the perfectly striped English garden.

Twinclip

Superior cutting for perfect lawn care

STIGA Twinclip lawn mowers offer superior cutting- and collecting- performance with maximum comfort and impressive endurance. All models feature a double-edged Twinclip blade, that doubles mowing-efficiency for the perfect finish.

- **Double-layered Twinclip blade**
- **Special deck design**
- **Improved airflow**
- **Strong chassis**
- **Heavy-duty transmission**
- **One-motion system: collector bag, cutting height and handle adjustment can be managed with just one hand**
- **Comfort**

TWINCLIP 950 SQ AE

- Powerful battery-powered selfpropelled lawnmower
- Ultra-powerful 2.2kW brushless motor delivers efficient mowing
- Double-layered blade maximises bagging efficiency
- Intuitive keypad with eco mode and six different speeds
- Extremely resistant aluminium wheel caps and carrying handle

Price	

XC SYSTEM TECHNOLOGY
Double-layered blade specifically shaped to perform a double cut and make grass clippings smaller
Special deck design improving the airflow and the overall collecting performances
Extrashield protecting mechanical parts against dirt and bumps

ONE MOTION SYSTEM
Plug-in-box allows you to plug it with just one hand and in just one movement
Button-handle system to regulate to desired cutting height in just one movement
Overinjected levers to adjust the Pro handlebar in height by means of a single motion

STRONG CONSTRUCTION
Composite deck mixing the resistance of galvanized steel with the durability of aluminium
Stronger chassis with four moulding steps to double the stiffness

TWINCLIP 55 SVEQ H

- Self-propelled lawnmower equipped with Honda engine with electric start
- 4 cutting modes available: collecting, mulching, rear- or side-discharge
- Centrally-adjusted cutting height, up to 7 positions available
- Easy speed management with speed regulator
- Resistant and reliable galvanized steel deck
- Vibrations control system included

Combi & Collector

The perfect combination of performance and comfort

The Combi models are versatile lawn mowers offering 3 or 4 cutting-systems in one machine. The airflow under the deck has been designed to improve cutting results.

- **3 or 4 in 1 cutting methods: collecting, mulching, side or rear discharge**
- **Front handle**
- **Skid plate to improve grass collection**
- **Central cutting height adjustment**
- **Grass catcher with full box indicator**
- **Washing link for quick wash of the deck**
- **Available power source: petrol, battery and electric**

COMBI 955 SQ AE

- Ultra-powerful 2.2kW motor delivers an exceptional cut and run time
- 53cm cutting width, 6 speeds, sturdy cutting heights, and 4-in-1 cutting system
- Electric brushless transmission means more efficient and comfortable mowing
- Hard plastic front protects from obstacle impacts
- Strong carrying handle and folding handlebar for easy storage

Multiclip

Save time, feed your lawn.

Robust, solid and efficient, STIGA Multiclip mowers feature specially-designed blades for top mulching results. These machines are built on steel chassis, resistant to knocks and rust. Cut, fertilize and get the healthy grass you desire!

- **Multiclip technology**
- **Specially designed blades**
- **Strong and resistant chassis**
- **Time saver: cut 30% faster**
- **Cut and fertilize at the same time**
- **Reduce the need for watering**
- **Available power source: petrol and battery**

MULTICLIP PRO 950 SX AE

- Powerful battery-powered selfpropelled mulching lawnmower
- Ultra-powerful 2.2kW brushless motor delivers efficient mowing and longer run time
- Ergonomic adjustable X-shape handlebar for easy manoeuvring
- Intuitive keypad with eco mode and six different speeds
- Extremely resistant aluminium wheel caps and sturdy front

Accessories and attachments

Blades

STANDARD BLADE

Linear and sharp design guarantees a perfect cut and improves the grass collection in rear discharge mode.

WINGED BLADES

They are designed with a special fin on both tips to facilitate cut grass down flow, through the exhaust manifold, up to the grass catcher.

COMBI BLADES

This versatile design combines the waved shape of the mulching blades with the long fins of the winged blades, allowing this blade to be used either in rear discharge or mulching mode.

MULCHING BLADES

Waved design that allows the blade to mince grass into small particles, that become nourishment for the lawn.

DOUBLE-LAYERED BLADES

Double-edged design that represents the evolution of the mulching blades. This patent pending design doubles mowing efficiency cutting the grass in two different times for power saving and optimizes grass collection for the perfect cut.

STIGA cylinder mowers are manually operated machines that require no engine, producing no exhaust emissions or noise: as the operator pushes the mower, the ball bearings wheels make it roll silently on the lawn while the reel blades slice grass.

Made of durable aluminum and equipped with stainless steel blades.

20 L front side grass catcher for SCM 440 FS (separately available)

Handhelds & Recycling

For trimming, cutting, cleaning, soil and ground care

STIGA lawn trimmers, brushcutters and hedge trimmers are well balanced, ergonomic and performing machines, that combine great cutting results with maximum comfort. In case of rough grass, bushes or just lawn trimming, there is a STIGA machine to get the job done easily, efficiently and safely.

Being a STIGA hand held

POWER AND PERFORMANCE

Reliable and powerful new engine technology guarantees perfect working activity, low emissions and -20% fuel consumption.

COMFORT AND SAFETY

Ergonomic soft-touch grip handles and a complex springs system ensure lower vibrations and a more comfortable experience.

RELIABILITY

Premium quality materials for strong and durable action and long-lasting machine life. Auto-choke system for enhanced performance and reliability.

Hedge Trimmers

Precise cut and maximum comfort

PRECISE CUT

The effective laser-cut double blade allows a fast and precise cut on any domestic hedge.

COMFORT

An ergonomic handle - combined with an anti-vibration system – means users can work in the most natural and comfortable position.

ADJUSTABLE

The rear handle can be turned through 180° and set in different positions for an easy shift from horizontal to vertical cutting.

SHT 900 AE

- Battery hedge trimmer delivers 200 minutes of powerful cutting action
- 500W brushless motor ensures highperformance, continuous trimming
- Intuitive keypad for easy variable speed control and battery power management
- Ergonomic, soft-grip 180° rotating handle can be adjusted into five positions
- Robust cutter bar made from lightweight aluminium and high carbon steel
- Suggested battery: 48V 7.5Ah, plugged in the SBH 900 AE battery harness - both sold separately

Lawn Trimmers & Brushcutters

CHOOSE YOUR POWER

Available with different power sources, depending on the needs. Petrol engines are equipped with a technology that guarantees low emissions and -20% fuel consumption. For battery-powered models, you can choose your battery (see page 152).

COMFORT AND SAFETY

Ergonomic soft-touch grip handles and an advanced springs system ensure lower vibrations and a more comfortable experience.

RELIABILITY

Premium quality materials for strong and durable action and long-lasting machine life. Auto-choke system improves starting reliability.

BUMP&WORK

Double line head.

Features:

- New design, handy and sturdy
- Higher flexibility spring for better line consumption control
- Extremely balanced at any rpm range
- Anti line-entangling design

Code	EAN	Pos	Description	Specification	Fits for
1911-9226-01	7313323128720	11	Trimmer head - Ø 109	M8 x 1.25 LH Female	SBC 226 J, 226 JD; SMT 226

Trimmer lines

SP SQUARE

A 15 meter reel of square section line with a 2.4 mm diameter for STIGA lawn trimmers and brushcutters. This particular shape of line will guarantee a precise and quick cut.

ROUND TIGER SECTION

Professional quality, co-extruded trimmer lines for any type of use. Made with a unique blend of materials for superior cutting performance.

A more efficient cut:

- less breakage at the eyelet
- faster
- for grass and weeds
- flexible for better cutting around stony areas, fences and sidewalks.

UNDULATED SECTION

SP66® is the only trimmer line that has been specifically developed for battery machines. SP66® has a patented raw material blend which is very hard wearing and has a higher melting point that eliminates welding in the head. The unique shaping process provides an aerodynamic profile with less air resistance, less vibrations and reduced noise emissions. These energy-saving features give a longer battery run time.

Excellent aerodynamic Properties:

- Longer battery run time
- A faster cut than traditional lines
- Less effort required
- Reduced noise emission

Usage:

- Battery machines
- All types of use

Hard wearing:

- Superior resistance to abrasion and eyelet wear
- Very stable and durable

Chainsaws

Top cutting performance and complete safety

CHOOSE YOUR POWER

Available with different power sources, depending on the needs. Petrol engines are equipped with a technology that guarantees low emissions and -25% fuel consumption. For battery-powered models, you can choose your battery (see page 152).

COMFORT AND SAFETY

Ergonomic soft-grip handles and the spring-system ensure minimise vibration-transfer and a more comfortable working experience.

RELIABILITY

Premium-quality materials guarantee superior performance and an extended product-life. Auto-choke system improves starting reliability.

SPS 700 AE

- Battery pole saw for powerful, continuous cutting
- 65cm telescopic shaft extends to 270cm
- 25cm cutting bar with high-performance chain
- Ergonomic, soft grip handle and shaft, including harness hook
- Blade cover protects chain from damage
- Suggested 48V 4Ah battery is sold separately

Accessories and attachments

E1MC - BL

The E1MC - BL is small and light-weight, making it easy to use and maneuver. It has small radius working corners for excellent performance and it is easy to maintain.

Saw size	Up to 38 cc
Bar lengths	Up to 16" (40 cm)
Features	Smooth cutting with reduced kickback features

N1C

N1C is ideal for property owner or professionals using light-weight chainsaws, who prefer low kickback. Bumper drive link paired with depth gauge design offers reduced kickback with strong performance and low-vibration.

Saw size	Up to 40 cc
Bar lengths	Up to 18" (45 cm)
Features	Smooth cutting with reduced kickback features

K1NK - BL

K1NK - BL is ideal for arborists and property owners seeking top performance. The narrow kerf cutting systems is more efficient, needing less power from the saw than standard cutting systems. Low-vibration, excellent performance and easy maintenance.

Saw size	37-45 cc
Bar lengths	13"-18" (32-45 cm)
Features	Faster, sharper and easier to maintain; requires less power for faster cuts

K2C - BL

Ideal choice for regular users of saws such as property owners and landscapers. Low-vibration, excellent performance and easy maintenance. Low kickback design.

Saw size	40-62 cc
Bar lengths	13"-20" (32-50 cm)
Features	Smooth cutting with reduced kickback features

K2LX - BL

Upgraded version: 10% more performing. An ideal chain for professional woodcutters who use .325" pitch saws. Low-vibration, full chisel cutters offer top performance. Offset depth gauges prevent cutters from driving into the sidewall of the cut, offering a smoother cut.

Saw size	40-62 cc
Bar lengths	13"-20" (32-50 cm)
Features	Maximum speed with precision cutting for high performance saws

A2EP - BL

An ideal choice for professional users who cut in a variety of conditions. Easy to maintain. Low-vibration, semi-chisel cutter designs work fast. This design is typically more tolerant of sharpening errors than chisel cutters.

Saw size	> 60 cc
Bar lengths	16"-36" (40-90 cm)
Features	Multi-purpose use, stays sharp longer and is easier to file

A2LM - BL

Ideal chain for professional woodcutters. Low vibration, top performance.

Saw size	> 60 cc
Bar lengths	16"-36" (40-90 cm)
Features	Maximum speed with precision cutting for high performance saws

Garden Multi-Mate

The handy way to trim, cut, shape, saw and aerate

CLEAN AND GREEN

Battery-powered for clean, green gardening. High energy-efficiency with less vibration, reduced noise and no maintenance. Ideal for plants, vases, roof gardens, patios and more.

EASY

Easy-to-plug battery charger for immediate reload. Accessories are quick and simple to attach via a tool-free 'click-in' system. Compact and easy to store.

VERSATILE

Grass and shrub blade always included, with different sizes available. Pruner and soil-grubber available separately.

PRODUCT HERO

SGM 102 AE

SHRUB BLADE

Precise hedge trimming, bushes shaping and box edge sculpturing.

GRASS BLADE

Accurate lawn trimming, lawn edging for a perfect finish.

PRUNING CUTTER

Sharp pruning of hedge, bush and tree branches.

SOIL GRUBBER

Assisted soil care on vases and flowerbeds.

Multi-tool

One machine, a lot of things you can do

MADE TO REACH HIGHER

When faced with tasks in the garden that would normally require a ladder, the versatile and lightweight STIGA Garden Multi-Tool is the most comfortable and easy solution.

CHOOSE YOUR POWER

These Multi-tools are available with different power sources, depending on the needs.

VERSATILITY

These cordless garden multi-tools are extremely adaptable and, with a wide range of accessories, they are ideal for manage different tasks in the garden.

SMT 500 AE KIT

- Lightweight battery multi tool for hedge cutting and pruning
- 65cm telescopic extension reaches 2.95m (hedge trimmer) and 2.70m (pruner saw)
- 46cm dual action laser-cut hedge trimmer blade and 25cm pruner cutting bar
- 112° rotating handle, soft touch rubber grip handle and shaft
- Bumper on pruner attachment delivers maximum cutting precision
- 48V 2Ah battery and charger included

Chipper and Shredder

Get rid of garden waste with an eco-friendly tool

KIND TO NATURE

Easy-to-use and environmentally-friendly machines to dispose of garden waste, both green and woody. All STIGA chippers and shredders are electrically powered.

EASY TO USE

STIGA chippers and shredders will effortlessly reduce garden-debris to a useful and valuable organic fertiliser for vegetable plots and flowerbeds.

RECYCLE WASTE

These machines make gardening simpler, allowing the user to choose how to re-use garden waste.

Cleaning

Powerful and easy-to-use cleaning tools for outdoor surfaces

A clean outdoor means a healthy garden!

The STIGA Cleaning range offers different solutions, to take care of your outdoor and get easily rid of dead leaves, grass cuttings, mud, dirt, dust or snow.

Being a STIGA cleaning tool

STRONG AND PRECISE

These machines are the ideal partner to keep the garden clean, thanks to their power, precision and flexibility.

EASY TO USE

All STIGA cleaning tools are lightweight and easily-manageable machines, very balanced and accessible.

KEEP IT CLEAN

All STIGA cleaning tools are meant to keep your outdoor clean from dirt, dust, mud, snow, or dead leaves.

High Pressure Cleaners

The power of water to easily and quickly clean outdoor surfaces

EASY TO USE

Electric power makes starting totally hassle-free: the user will just need to plug-in, connect to a water source and get cleaning. These machines are also easy to store.

CLEAN ANY SURFACE

Thanks to their powerful jet of water, STIGA high-pressure washers will blast off dirt, dust, grease and grime from any surface-type.

VERSATILE MACHINES

STIGA pressure washers can be adapted for cleaning patios, drive- and walk-ways, garden furniture and much more. Compatible with a wide range of parts and accessories to improve functionalities.

Blowers

Balanced weight, precise airflows:
a perfect job

STRONG AND PRECISE

Thanks to their vacuum-capability and focused airflow that avoids air dispersion, these machines are the ideal workmate in the battle to keep the garden and other outdoor spaces tidy.

EASY TO USE

STIGA leaves-blowers are lightweight machines that will make it quick and easy to get the job done. Their perfect balance ensures maximum comfort.

KEEP LAWN HEALTHY

The removal of dead, dried-out leaves, will keep the lawn healthy by avoiding the formation of growth-inhibiting moss and fungi.

Sweepers

The easiest way to remove leaves and debris from driveways or footpaths

EASY TO USE

These machines are both easy to push and highly maneuverable. Their simple design makes maintenance totally straightforward; while their lightweight structure means they can be used by any operator.

STRONG AND DURABLE

All STIGA sweepers are characterised by strength and durability. They're equipped with hard-wearing brushes that will pick-up all types of material, including dirt, dust, grass-clippings, hedge-trimmings and litter.

BEST SWEEPING SYSTEM

STIGA push sweepers are equipped with the best collecting system in their segment and can easily collect compressed plastic bottles, stones and metallic cans. STIGA petrol sweepers are self-propelled and powerful machines, suitable for wide areas to be cleaned.

Snow Throwers

Snowfalls will no longer be a problem, no matter how heavy!

MANAGE ANY KIND OF SNOW

STIGA snow throwers can easily face light snow, but also build ups of fresh snow.

SINGLE-OR TWO-STAGE

STIGA single stage snow throwers are great for removing lighter snow on flat surfaces, while to clear frozen snow on hard outdoor surfaces, the two stage snow thrower is ideal.

GREAT CONTROL, EASY MANAGEMENT

All STIGA snow throwers have adjustable chutes and controls located on the handles.

ST 7276 PH

- Two-stage snow blower with STIGA 420 cc petrol engine and 76 cm clearing width.
- Powered by a 420 cc STIGA engine
- Two-stage snow-throwing system
- 76 cm clearing width
- Hydrostatic-Pro transmission
- Electric switches for chute and deflector control

Accessories

For top quality results and to ensure the best performance

STIGA accessories are developed alongside our main equipment to ensure quality and safety, carrying out strict tests and careful checks throughout the process.

Our range also includes safety jackets and trousers, gloves, braces and helmets to perform even the toughest outdoor work in total freedom and safety.

STIGA original oils help keeping every STIGA tool at its best, operating smoothly in all weather conditions and extending its lifespan.

Forestal jacket

Working jacket made in 4-way stretch micro-rip fabric.

Packaging

Dimensions: 38.5x29x10 cm
Gross weight: 1.240 kg

Code	EAN	Description	Size
1599-1928-01	8008989902409	Forest jacket	S

FAST BIODEGRADABLE

Environmentally-friendly chainsaw oil based on harvestable raw materials.

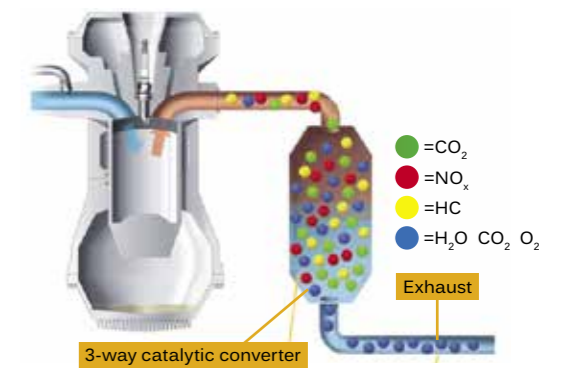

IDEAL FOR

2 Stroke Oil

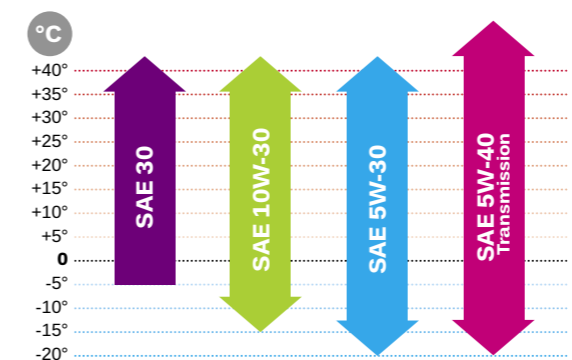

Synthetic 100% is certified JASO FD that guarantees a superior quality and a better oiling. A superior quality means a better lubrication, less dirt on spark plugs and less leftovers in the cylinder; the engine will release less emissions and perform better.

IDEAL FOR

4 Stroke Oil and Transmission Oil

Temperature performance

Viscosity performance

4 Stroke Oil

SAE 30 is superb for use from 0°C ambient temperature, the specifications API SL/CF mean that it is suitable for both diesel engines with and without turbo charger. SAE 10W-30 designates a multigrade-oil. "10W" and 5V viscosity of the oil at cold temperature and the number 30 indicates the viscosity at 100°C.

IDEAL FOR

SAE 5W-30 ALSO IDEAL FOR
